Wikipedia

Communication with Extraterrestrial Intelligence We are not alone in the universe. A few years ago, this notion seemed farfetched; today, the existence of extraterrestrial intelligence is taken for granted by most scientists. Even the staid National Academy of Sciences has gone on record that contact with other civilizations

communicate. Conceptually, it ' s not overly complex. If you can train machines to identify what makes an audience react (trust, engage, listen, act) and then train the machine to measure enough factors in those communications (how we use our words, voices, gestures) that may influence those reactions, then you can use data science and algorithms to build an intelligent machine that can improve how we communicate.
