~~The Mind Workout: Twenty steps to improve your mental~~

~~Studies from 2006 even suggest that exercise can make you smarter and protect your brain from shrinkage as it ages. Research on mice in 2013 has even revealed that exercise can increase neurogenesis, or the formation of new brain cells, in the brain's hippocampus.. One study published in 2013 looked at healthy behaviors in nearly 2,300 men over the course of thirty years.~~
